

Please do not replace K-LOVE with a LPFM. National stations such as K-Love serve a very important purpose. With the national interest and donations, they are able provide more services to the communities that they serve. This could not be done just on a local level. If you listen to some of the stories on the shows, this station and its resources have SAVED LIVES. They are a great witness. They are high quality. Local stations don't have the quality that the national station has.
